FOR THE EU IMPORTER

Crustaceans › Crawfish tails

CN code 0306 11 10 · Export Argentina › European Union · The whole European Union

> **With the agreement, the duty today is 10% instead of 12.5%, and it reaches zero on 1 January 2030.**

1. Product and tariff code

Nomenclature	Code	Official description
NCM (Argentina)	0306.11.10	Enteras
NCM (Argentina)	0306.11.90	Las demás
CN (European Union)	0306 11 10	Frozen: rock lobster and other sea crawfish (Palinurus spp., Panulirus spp., Jasus spp.): crawfish tails

2. Import duty in the EU

The preferential duty today is **10%**. The MFN duty, without the agreement, is 12.5%. It reaches zero **on 1 January 2030**.

Base rate (annex)
12.5%
Appendix 2-A-1, line 0306 11 10 in CN 2013

MFN duty in force
12.5%
In force since 1 January 2026

Preferential duty today
10%
Category 4 · year 0 of the schedule

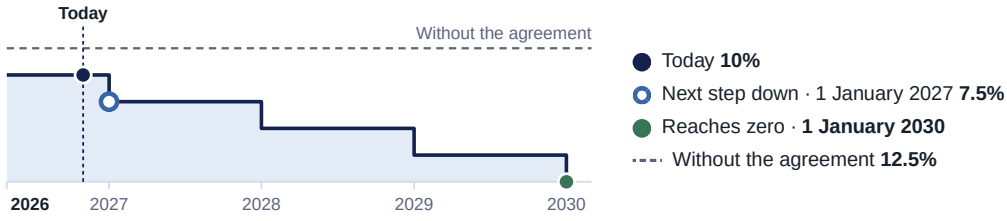
Staging category
4

Reaches zero
1 January 2030

Other annex lines
0306 11 05 (20)
The nomenclature changed and this line takes in more than one annex line

Next step down. On 1 January 2027 the duty goes down from 10% to **7.5%** (stage 2 of 5). It reaches zero on 1 January 2030.

HOW THE DUTY COMES DOWN UNDER THE AGREEMENT



FROM TODAY UNTIL THE LAST STAGE

From	Stage	Ad valorem	Specific (€)	Applies
1 May 2026	**1 of 5 (year 0)**	**10%**	**Sin dato**	**Preferential**
1 January 2027	2 of 5	7.5%	Sin dato	Preferential
1 January 2028	3 of 5	5%	Sin dato	Preferential
1 January 2029	4 of 5	2.5%	Sin dato	Preferential
1 January 2030	5 of 5	0%	Sin dato	Duty-free

How it is calculated. Category 4 eliminates the duty in 5 equal stages: the first on 1 May 2026 and the others each 1 January. This is stage 1 of 5, so 80% of the base rate is paid. It reaches zero on 1 January 2030.

3. Tariff-rate quota

The agreement opens no tariff-rate quota (TRQ) for this line. The preference therefore applies to every shipment, with no volume limit and no quota procedure.

4. Proof of origin

What the importer needs to receive for EU customs to apply the preferential duty.

Rule of origin for this line, as published in the agreement. «Manufacture in which all the materials of Chapter 3 used are wholly obtained.»

What document grants the preference. A statement on origin made out by the exporter. EU customs apply the preferential duty when the importer presents it; without it the general (MFN) duty is charged. (iTA, Article 3.16)

Where it goes and how it is signed. On the invoice, the delivery note or any other commercial document that describes the product in enough detail to identify it, using the Annex 3-C wording below. It carries the handwritten signature of the exporter, unless the exporting country's rules provide otherwise. Argentina's rules do, and the statement is signed electronically or digitally on the TAD platform. (iTA, Article 3.17(5) and (6); Disposición SSCE 1/2026, Article 6)

The Argentine exporter's reference number. It is the exporter's CUIT, the 11-digit Argentine tax ID, and the statement is generated on the TAD platform (Trámites a Distancia) as a sworn statement. It is valid only for exports to the European Union. The origin is written as «MERCOSUR», not «Argentina». The agreement does not refer to REX registration: the reference number is the one set by the exporting country's rules. (Disposición SSCE 1/2026, Articles 2 to 5; Official guide to the Agreement (Argentine Foreign Ministry), Annex III, points 2.2, 2.3 and 9; iTA, Annex 3-C, notes 1 and 2)

How long it is valid. It is valid for 12 months from the date the exporter issues it, and is presented to customs within that period. It can be issued at export or afterwards, provided it reaches the customs of import no later than 2 years after the goods were imported. (iTA, Articles 3.17(7) and 3.18(1))

The certificate of origin, for now. Until 1 May 2029 the European Union also accepts a certificate of origin instead of the statement. The period may be extended by 2 years if Mercosur notifies it. (iTA, Annex 3-D, paragraphs 1 and 2)

What each side keeps. The importer keeps the statement, or a copy, for at least 3 years from import. The exporter keeps a copy and the documents proving origin for the same period. (iTA, Article 3.22)

If customs have doubts. The customs of import may verify the statement at random or when they have reasonable doubts. The Argentine authorities carry out the verification and, if the preference is suspended meanwhile, the importer is offered release of the goods subject to any precautionary measures required. (iTA, Article 3.25(1), (4) and (5))

THE WORDING OF THE STATEMENT

The exporter of the products covered by this document (exporter reference no…) declares that, except where otherwise clearly indicated, these products are of … preferential origin.

Exporter reference no: the CUIT of the Argentine exporter.
Preferential origin: MERCOSUR.
Below it go the place and date, the signature of the exporter and the name of the signatory in clear script.
iTA, Annex 3-C, English version

5. Border controls and requirements

The product is on the list of goods the European Union controls at the border, so **it enters through a border control post and with an official certificate**. It is a procedure to complete, not a prohibition, but without it the consignment is not cleared, even at zero duty. EU law sets a labelling rule specific to this product, in addition to those for all foods. It is below, with the act and the article. This product class has 42 **protected European names**, names that cannot be used in the European Union. The Commission's portal (Access2Markets) assigns 10 EU product requirements to this line (technical, labelling or marketing rules). It assigns them to the whole line, and the table lists each one with its act and the link to check whether it applies to the product.

Type	Requirement	Status
SPS	Official control at an EU border control post. The consignment must enter through an approved border control post, be pre-notified in TRACES with a common…	Amber · must be met before shipment
Where it is handled	TRACES NT · EU consignment control system. The consignment is notified here before it arrives, and the certificate is issued by SENASA on the Argentine side.	Amber · procedure
Labelling	Commercial designation, scientific name, catch area and fishing gear. A fishery product may only be offered to the final consumer if the marking or labelling…	Amber · conditions to meet
Name · EU GI	42 protected European names in this product class. This position falls in the class Carne, pescado y sus preparados, which the annex defines by code. Those…	Information · the class covers the whole chapter (relevant only if one of those names is used)
Name · Mercosur GI	10 Mercosur names are protected in the European Union.	Green · a protection in the exporter's favour
Third-country list	Argentina is on the list of authorised countries.	Green · the country is authorised
No approved plan	Categories for which Argentina is NOT on the list. Porcine. A product in any of these cannot enter the European Union today, even at zero duty and with an…	Amber · check whether it is the category of the product
Establishment approval	The plant, approved in Argentina and listed by the European Union. No data.	Grey · no data
Exporter registration	Registration as an exporter with Argentine customs. No data.	Grey · no data

Where a requirement ends in an ellipsis, its full text is on the online sheet.

Other EU product requirements listed by Access2Markets. Health control of fishery products intended for human consumption · Health control of fishery products not intended for human consumption · Control of contaminants in foodstuffs · Health control of Genetically Modified (GM) food and novel food · Control of residues of veterinary medicines in animals and animal products for human consumption · Labelling of fishery products · Labelling of foodstuffs · Marketing standards for feedingstuffs · Traceability, compliance and responsibility in food and feed · Control on illegal fishing · Voluntary - Products from organic production.
