No year-by-year table. This line has a preference only within quota «RE». Outside the quota the duty shown in the quota block applies.

3. Tariff-rate quota

Yes, there is a tariff-rate quota (TRQ) with order number 09.0878; in-quota duty: Duty-free. The period 1 May 2026 – 31 December 2026 has **6,666,666.67 kg (6,667 t)** and today it is **exhausted (on 30 October 2026 the balance was zero)**. The next period opens on **1 January 2027** with 20,000 t.

Order number 09.0878 Goes on the customs declaration. The agreement calls it TRQ-RE	Quota for the current period 6,666,666.67 kg (6,667 t) 1 May 2026 – 31 December 2026	Balance 0 kg Read on 30 October 2026

The importer claims it in the customs declaration with order number 09.0878, with no import licence, and it is allocated first come, first served until exhausted. The full conditions are in [Implementing Regulation \(EU\) 2026/996, order number 09.0878](#).

4. Proof of origin

What the importer needs to receive for EU customs to apply the preferential duty.

Rule of origin for this line, as published in the agreement. «Manufacture in which all the materials of Chapter 10 used are wholly obtained.»

What document grants the preference. A statement on origin made out by the exporter. EU customs apply the preferential duty when the importer presents it; without it the general (MFN) duty is charged. (iTA, Article 3.16)

Where it goes and how it is signed. On the invoice, the delivery note or any other commercial document that describes the product in enough detail to identify it, using the Annex 3-C wording below. It carries the handwritten signature of the exporter, unless the exporting country's rules provide otherwise. Argentina's rules do, and the statement is signed electronically or digitally on the TAD platform. (iTA, Article 3.17(5) and (6); Disposición SSCE 1/2026, Article 6)

The Argentine exporter's reference number. It is the exporter's CUIT, the 11-digit Argentine tax ID, and the statement is generated on the TAD platform (Trámites a Distancia) as a sworn statement. It is valid only for exports to the European Union. The origin is written as «MERCOSUR», not «Argentina». The agreement does not refer to REX registration: the reference number is the one set by the exporting country's rules. (Disposición SSCE 1/2026, Articles 2 to 5; Official guide to the Agreement (Argentine Foreign Ministry), Annex III, points 2.2, 2.3 and 9; iTA, Annex 3-C, notes 1 and 2)

How long it is valid. It is valid for 12 months from the date the exporter issues it, and is presented to customs within that period. It can be issued at export or afterwards, provided it reaches the customs of import no later than 2 years after the goods were imported. (iTA, Articles 3.17(7) and 3.18(1))

The certificate of origin, for now. Until 1 May 2029 the European Union also accepts a certificate of origin instead of the statement. The period may be extended by 2 years if Mercosur notifies it. (iTA, Annex 3-D, paragraphs 1 and 2)

If it enters under the quota. Besides the statement on origin, goods entered under an EU tariff-rate quota travel with an official document issued by the exporting Mercosur country. (ITA, Article 3.30)

What each side keeps. The importer keeps the statement, or a copy, for at least 3 years from import. The exporter keeps a copy and the documents proving origin for the same period. (ITA, Article 3.22)

If customs have doubts. The customs of import may verify the statement at random or when they have reasonable doubts. The Argentine authorities carry out the verification and, if the preference is suspended meanwhile, the importer is offered release of the goods subject to any precautionary measures required. (ITA, Article 3.25(1), (4) and (5))

THE WORDING OF THE STATEMENT

The exporter of the products covered by this document (exporter reference no...) declares that, except where otherwise clearly indicated, these products are of ... preferential origin.

Exporter reference no: the CUIT of the Argentine exporter.

Preferential origin: MERCOSUR.

Below it go the place and date, the signature of the exporter and the name of the signatory in clear script.

ITA, Annex 3-C, English version

5. Border controls and requirements
